PRYSTINE Plenary Conference

Helsinki, Finland 02-04.04.2019

On the 2nd of April PRYSTINE project management team (PMT) met at the Finnish Transport and Communications Agency (Traficom). During this meeting, PMT members internally discussed the progress of the project on the Supply Chain and Work Package level. One of the key subjects of discussions was the preparation for the 1st review.

On the 3rd of April the 1st yearly project plenary meeting was organized in cooperation with TTS and took place in Traficom and TTS premises. The meeting gathered project's management team (PMT members) together with all project partners to familiarize everyone with the PRYSTINE vision and expected outcomes, project progress, and current stage of the project. After fruitful discussions, all participants were taken to TTS premises for a simulator center visit. While there, PRYSTINE partners had the chance to try their skills of driving a bus and a truck in the simulator.

The 4th of April was dedicated to two sessions of parallel technical Supply Chains' and Work Packages' meetings.

BDLI TecDay

Immenstaad, Germany 18.03.2019

On the 18th of March the Selim Solmaz representing VIF and Anna Ryabokon - TTTech, participated in the annual event "Bodensee Aerospace Meeting" organized by Airbus Defence and Space to present the Prystine project. This year the event was held in Immenstaad, Germany.

PRYSTINE PMT and WP4 Meeting

Amberg, Germany 24-25.01.2019

On the 24-25th of January the quarterly meeting of project management team (PMT) and the work package for embedded systems (WP4) took place at the OTH Amberg-Weiden. Prof. Höß was pleased to welcome over 30 members of the PRYSTINE project management team and selected other European partners to the OTH in Amberg as Vice President of the University.

Upcoming PRYSTINE Meetings

PRYSTINE 1st Review Preparation Meeting
Vilnius, Lithuania 21-23.05.2019

PRYSTINE 1st Review
Brusells, Belgium 4-5.07.2019

Upcoming Events

22-26 April,
2019 IEEE Radar Conference in Massachusetts USA

16–17 May,
ENABLES3 final event (ECA2030 workshop) in Graz, Austria

10-14 June,
Summer School on Cyber-Physical Systems collocated with
7th EUROMICRO/IEEE Workshop on Embedded and Cyber-Physical Systems and
8th Mediterranean Conference on Embedded Computing in Budva, Montenegro

9-12 June,
2019 IEEE Intelligent Vehicles Symposium (IV) in Paris, France

17-18 June,
ECSEL JU Symposium in Bucharest, Romania

3-4 July,
ECPE- Availability of Power Electronics by Fault-Tolerant Designs in Automotive and Aircraft Workshop in Leinfelden-Echterdingen, Germany

4-5 July,
10th IFAC Symposium on Intelligent Autonomous Vehicles in Gdansk, Poland

October,
AutoDrive Plenary meeting together with ECA2030 workshop in Riga, Latvia

4-8 November,
2019 IEEE ICCVE the 8th IEEE International Conference on Connected Vehicles and Expo in Graz, Austria

19-21 November,
EFECS 2019, European Forum for Electronic Components and Systems in Helsinki, Finland
