17-18.06.2019, ECSEL JU Symposium 2019

PRYSTINE together with other Lighthouse Mobility.E projects AutoDrive, AI4DI, and NewControl projects were presented during the ECSEL JU Symposium 2019. The Symposium took place in Bucharest Palace of Parliament, Romania. The event gathered a wide range of European and global stakeholders in the Electronics Components and Systems domain, including industry representatives, research and financial experts, policy decision-makers, and key opinion leaders.

05.07.2019, PRYSTINE 1st Review

On the 5th of July the 1st review meeting was held in Brussels, Belgium at the ECSEL JU headquarters. Project Managing Team (PMT) and individual partners representing project demonstrators gathered to introduce the Reviewers with the overall project status after the first year. Leaders of Supply Chains and Work Packages presented the achieved results, deliverables, and milestones, and gave a glimpse into near-future plans and activities, focusing especially on the planned technological demonstrators. 1st year review meeting culminated with a session of two demonstrators and a few demonstration-videos showing early progress which was highly appreciated.

24-26.09.2019, European Research & Innovation Days

PRYSTINE together with AutoDrive were presented for over 200 visitors at the joint projects' booth with several demonstrators during the three days event. PRYSTINE project presented two technical demonstrators: Demo 1.3 Radar and Demo 1.1 LiDAR which received exceptional attention from the visitors for its interactive representation, including Ms. Maria da Graça Carvalho -Member of European Parliament.

26-27.09.2019, PRYSTINE PMT Meeting

Project PMT team together with the invited Innovation Technology and Advisory Board (ITAB) gathered to discuss the progress after the 1st review and to discuss the necessary actions to be taken. The main purpose of this meeting was to discuss lessons learned from the 1st review, status and open issues, interactions, risks and mitigation in SCs and WPs level.

Other events PRYSTINE was presented at:

9-11.04.2019, SAE WCX 2019 World Congress, Detroit, USA

13-14.06.2019 Innovation Drift, Vilnius Lithuania

24-28.06.2019 International Wireless Communications & Mobile Computing Conference IWCMC2019, Tangier, Morocco

3-6.07.2019 OKRA- Agriculture and transportation exhibition in Orpää airport, Finland

27.09.2019 European Researchers Night in Modena, Italy

Upcoming events:

19-21.11.2019, European Forum for Electronic Components and systems - EFECS 2019 in Helsinki, Finland.

13.12.2019 PMT meeting in Munich, Germany (preparation for the interim review)

13.01.2020 PRYSTINE Interim Review for Y1 and beyond

14-15.01.2020 ECS BROKERAGE Event 2020 in Brussels, Belgium

27-30.04.2020 Transport Research Arena -TRA2020 Helsinki, Finland

23-24.06.2020 ECSEL JU Symposium place TBC.
